STEPS TO SUCCESS

Great presentations do not happen by chance—they are the result of preparation, clarity and confidence. These steps can help:

- **Know Your Customer.** Choose one of the four customer profiles provided and tailor your message to what matters most to them
- **Know Your Vehicle.** Develop a strong understanding of your selected Cadillac EV—its design intent, technologies, performance and place in the Cadillac EV portfolio
- **Plan with Purpose.** Outline the story you want to tell before you record. Focus on the features and benefits that will resonate most with your chosen customer
- **Practice for Confidence.** A few practice runs will help your delivery feel natural, professional and customer-ready
- **Record, Review, Refine.** Review your video to ensure it meets all submission requirements and clearly communicates the Cadillac EV advantage

GET READY FOR YOUR CLOSE-UP

A polished delivery reinforces Cadillac's standard of excellence and professionalism. These best practices will help elevate your presentation:

- You may use a smartphone, tablet or digital video camera
- Always shoot in **landscape orientation**
- Film in a **well-lit area** with light sources behind the camera—not behind you
- Avoid background noise; test audio before recording
- Have someone else operate the camera—**no selfie videos**
- Minimize camera movement; begin with wide shots and move in slowly if needed
- Speak clearly, confidently and naturally—as **you would talk to a customer**
- Wear professional, Cadillac-appropriate attire
- Be authentic. Confidence and clarity matter more than polish
